

The Thirsty Crow

By [Shane Connelly](#)'s [AI Childrens Book Generator](#)

Once upon a time, there was a clever crow. One hot sunny day, the crow became very thirsty. He flew and flew in search of water.

After a long flight, the crow finally saw a water pitcher down below. He quickly flew down to get a closer look.

But when he looked inside, the crow saw that there was very little water at the bottom of the pitcher. He tried to reach it but his beak was too short.

The crow got an idea! He saw some small pebbles lying around. One by one, he started to drop the pebbles into the pitcher.

As he dropped more and more pebbles into the pitcher, the water level started to rise. The crow kept working hard, not giving up.

Finally, after dropping lots of pebbles, the water level was high enough. The crow happily drank the refreshing water.

The crow felt so refreshed! "Where there is a will, there is a way," he thought. The crow flew away happily, ready for his next adventure.
